

Sample Medical Report (Blood Test)

Patient Name: John Doe

Age: 42

Gender: Male

Date of Report: 25-Aug-2025

Complete Blood Count (CBC)

Hemoglobin (Hb): 10.5 g/dL (Normal: 13.8 – 17.2 g/dL)

White Blood Cell Count (WBC): 11,500 / μ L (Normal: 4,000 – 10,500 / μ L)

Platelet Count: 180,000 / μ L (Normal: 150,000 – 450,000 / μ L)

Blood Chemistry

Fasting Blood Glucose: 145 mg/dL (Normal: 70 – 100 mg/dL)

Serum Creatinine: 1.4 mg/dL (Normal: 0.7 – 1.3 mg/dL)

Total Cholesterol: 220 mg/dL (Normal: < 200 mg/dL)

HDL Cholesterol: 38 mg/dL (Normal: > 40 mg/dL)

LDL Cholesterol: 150 mg/dL (Normal: < 130 mg/dL)

Doctor's Notes

Low hemoglobin indicates mild anemia.

Elevated fasting glucose suggests diabetes (Type 2) risk.

Cholesterol levels are borderline high, patient advised lifestyle modification.

Follow-up recommended with hematology and endocrinology.

Save this as Blood_Test_Report.pdf and upload it into your app.
Then you can try asking:

“What abnormalities are present in this report?”

“Explain the cholesterol results.”

“What does the low hemoglobin mean?”
